Yiyang First Hospital of Traditional Chinese Medicine Hunan Yiyang 413002

Abstract: Epilepsy as idiopathic abnormal mental disease, the majority of patients with trance, may be in the disease when suddenly fainted, when someone again next call is of no help, and the two eyes were directly under the state, spit saliva foam, and also accompanied by obvious limbs convulsions or strange cries. Usually, when patients in the seizure before there will be a significant sense of vertigo, and some patients will feel chest symptoms, when awake and normal behavior, such as the same, but will be accompanied by a slight sense of fatigue. Professor Xiong Jibai has unique views on TCM diagnosis and treatment of eclampsia. After years of practice, he has also summarized a series of experiences, which are summarized as follows.

Keywords: Xiong Jibai; Treatment from sputum; Epilepsy
