## Progress in Hospice Care and Nursing of Patients with Advanced Cancer

Yanyan Qiao

Longhua Hospital Shanghai University of Traditional Chinese Medicine Shanghai 200032

**Abstract:** Tumor is common in clinical medicine. As a malignant disease, the life of patients with advanced tumor is over once they are diagnosed with advanced tumor. For patients with advanced cancer, medical staff should give them the greatest comfort as far as possible, so that patients will not be too painful before dying. This paper mainly reviews the clinical care and nursing progress of patients with advanced cancer, as described below.

**Keywords:** Patients with advanced tumor; Deathbed care; Nursing progress
